

Illinois FAASTeam presents:

Skill Aviation Open House and ForeFlight Seminar

This 90 min seminar will begin with a 'Quick Start' for any pilot using or considering ForeFlight, and then 'drill down' to in-depth and hidden features & benefits, for pilots already using ForeFlight that are probably not aware of all the things they are missing! Topics will cover the common use of ForeFlight moving map, but also integration with the iPad, ADS-B and 3rd party products like Stratus, Dual, and Bad Elf. We will plan a short cross country trip from Chicagoland to upper Wisconsin, including routing, custom waypoints, weather briefing and flight plan submission. We will also show how to use some Apple 'tricks' to use ForeFlight and related software in the cockpit, including integration with WiFi and Bluetooth technology. Bring your iPad and 'follow along' and plan the route with the instructor.

Open house also features helicopter, glider, aerobatic flights, warbirds on display and more.

Directions: Driving: Skill Aviation is located on the East side of UGN airport off Lewis Avenue. Best route is Rt. 41 to Delany Road, North to Yorkhouse Road, East to Lewis Avenue.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
